

DONALD GUNN LECTURE

The Power Of Volunteerism

Peter Y.C. Lee

Consultant Orthopaedic Surgeon

BIJOS Orthopaedics

Farrer Park Hospital

Singapore

Being an Orthopaedic surgeon is a privilege granted to the fortunate few, especially so in ASEAN. In addition to serving the needs of patients in hospitals, the Orthopaedic surgeon can also be a valuable member of the community, contributing in many varied roles.

Volunteerism is a very powerful tool for doctors to benefit society. It is also immensely important for personal development. Working collectively, Orthopaedic surgeons can be integral to community and health care development in the region.
